Introduction

This information is furnished by the American Board of Colon and Rectal Surgery to outline rules and regulations regarding certification by our Board. The material herein provided should supply the necessary information concerning requirements for certification.

It is the responsibility of the candidate to initiate the certification process by submitting an Application for Examination to the American Board of Colon and Rectal Surgery.

Educational programs in colon and rectal surgery are reviewed and approved by the Residency Review Committee for Colon and Rectal Surgery under the auspices of the Accreditation Council for Graduate Medical Education (ACGME). A list of residencies appears in the DIRECTORY OF GRADUATE MEDICAL EDUCATION PROGRAMS, published by the American Medical Association, and in each issue of the Journal, DISEASES OF THE COLON AND RECTUM.

Important Dates for Residents in Colon and Rectal Training Programs 8/01/2016– 7/31/2017

APPLICATIONS FOR THE 2018 CERTIFICATION PROCESS

Application materials must be completed and returned at the conclusion of training according to the schedule below:

August 15, 2017	Deadline for receipt of application materials, \$400 application fee and Operative Log to be submitted to ACGME.
August 16-September 10, 2017	Late applications accepted (\$200 late application fee will be required).
October, 2017	Credentials Committee reviews applications. Applicants will be notified of acceptance for Written Examination shortly after Committee Review Process.
January 15, 2018	Deadline for receipt of \$1,200 Written Examination fee.
January 16-January 19, 2018	\$200 late fee accepted along with \$1200 payment.
(by) January 22, 2018	Instructions on Written Examination procedure sent to candidates.
March 21, 2018	Written Examination – Pearson Vue
April, 2018	Notification of Written Examination results. Oral Examination information sent to successful candidates.
June 1, 2018	Deadline for receipt of \$1,200 Oral Examination fee.
June 2-June 8, 2018	\$200 late fee accepted along with \$1200 payment.
(by) August 1, 2018	Instructions on Oral Examination procedure sent to candidates.
September 22, 2018	Oral Examination Omni Hotel, 676 N Michigan Avenue, Chicago, Illinois 60611
October, 2018	Notification of Oral Examination results.

THE AMERICAN BOARD OF COLON AND RECTAL SURGERY

Approved: 1949 Incorporated: 1935

EXAMINERS OF THE BOARD

In addition to current and former members, the American Board of Colon & Rectal Surgery maintains a slate of Associate Examiners. Terms are two years, and are renewable for an additional two-year period (a total of four years). Associate Examiners join Board members in all aspects of the examination process including preparation of test items for the written examination, as well as participation in the oral exam.

Associate Examiners are required to be certified by the American Board of Colon and Rectal Surgery and are required to take the Maintenance of Certification examination. Below you will find the current slate of the Board's Examiners:

HISTORICAL REVIEW

The American Board of Colon and Rectal Surgery was organized as the American Board of Proctology in 1934 and incorporated on August 13, 1935. It was the sixth Board to be organized and the tenth to be incorporated. In 1934 representatives of the American Proctologic Society (now the American Society of Colon and Rectal Surgeons) sought approval of the American Board of Proctology from the Council on Medical Education and Hospitals and the Advisory Board for Medical Specialties (now the American Board of Medical Specialties).

In 1940 provision was made for certification of proctologists by the American Board of Surgery and a committee of proctologists known as the Central Certifying Committee in Proctology of the American Board of Surgery. On June 15, 1949, the Advisory Board for Medical Specialties and the Council on Medical Education and Hospitals granted the American Board of Proctology approval as a primary board. It thus became the 18th specialty board approved by these organizations.

The Board announced to the Advisory Board of Medical Specialties on February 4, 1961, its intention to change its name to the American Board of Colon and Rectal Surgery, Inc. and subsequently formally adopted the change of name at its regular meeting on April 15, 1961.

The Board is sponsored by our specialty's national organization, the American Society of Colon and Rectal Surgeons, the Association of Program Directors for Colon and Rectal Surgery, the American College of Surgeons and the American Board of Surgery.

The American Board of Colon and Rectal Surgery is one of 24 medical specialty boards that make up the American Board of Medical Specialties (ABMS). Through ABMS, the boards work together to establish common standards for physicians to achieve and maintain board certification. The boards were founded by their respective specialties to protect the public by assessing and certifying doctors who meet specific educational, training and professional requirements. The American Board of Colon and Rectal Surgery is an independent, non-profit organization. For more information about ABMS, visit www.abms.org.

PURPOSES AND FUNCTIONS OF THE BOARD

The American Board of Colon and Rectal Surgery was established to promote the health and welfare of the American people through the development and maintenance of high standards for certification in the specialty of colon and rectal surgery.

To accomplish this, the Board:

1. Determines that candidates possess proper qualifications before taking the examination for certification or maintenance of certification.
2. Conducts examinations to determine the ability and fitness to practice the specialty of colon and rectal surgery.
3. Awards certificates to those candidates who fulfill its requirements.

The American Board of Colon and Rectal Surgery appoints representatives to the Residency Review Committee. This is a tripartite committee which reviews and evaluates new and previously approved residency programs in colon and rectal surgery in order to maintain the high standards of graduate medical education. It is composed of members representing the Board, the American College of Surgeons, and the American Medical Association.

DEFINITION OF A BOARD CERTIFIED COLON AND RECTAL SURGEON

A Board Certified colon and rectal surgeon has successfully completed at least a five year training program in general surgery and one additional year in an ACGME approved colon and rectal surgery residency. He/She has then passed both the Written (Qualifying) and Oral (Certifying) Examinations given by the American Board of Colon and Rectal Surgery. Certification by the American Board of Surgery is required for all candidates prior to taking the ABCRS Certification (Part II) Examination.

In addition to having proficiency in the field of general surgery and fundamentals of laparoscopic surgery, colon and rectal surgeons have acquired particular skills and knowledge with regard to the medical and surgical management of diseases of the intestinal tract, colon and rectum, anal canal, and perianal area. Colon and rectal surgical specialists also have special skills in the performance of endoscopic procedures of the rectum and colon and evaluation of the anal sphincter and pelvic floor using anorectal physiology techniques. Colon and rectal surgical residency programs now provide training in minimally invasive abdominal surgery involving the colon and rectum.

A colon and rectal surgeon has been trained to deal with conditions such as, but not limited to, colon and rectal cancer, polyps, inflammatory bowel disease, diverticulitis, pelvic floor abnormalities, as well as anal conditions such as hemorrhoids, fissures, abscesses, and fistulas. Training in colon and rectal surgery also provides the specialist with in-depth knowledge of intestinal and anorectal physiology required for the treatment of problems such as constipation and incontinence.

Board Certified colon and rectal surgeons are committed to the highest standards of care for patients having diseases affecting the intestinal system.

QUALIFICATIONS OF CANDIDATES

A candidate shall comply with the current regulations of the Board, regardless of the time of filing applications. Decisions pertaining to fulfillment of requirements are made by the Board upon review of the candidate's formal application.

GENERAL REQUIREMENTS

1. A candidate shall appear personally before the Board and submit to the required examinations.
2. A candidate shall limit the majority of his/her practice to colon and rectal surgery.
3. A candidate may be required to deliver to the Board sufficient case reports to demonstrate proficiency in colon and rectal surgery.
4. A bibliography of papers and books published by the candidate shall be submitted to the Board upon request.
5. The moral and ethical fitness of a candidate must be satisfactory to the Board and in conformity with *the Statements on Principles* of the American College of Surgeons, and the *Principles of Medical Ethics* of the American Medical Association. Practices not conforming therewith may result in rejection of an application or in deferral of examination until such matters have been resolved.

PROFESSIONAL QUALIFICATIONS

1. A candidate must have completed an Accreditation Council for Graduate Medical Education (ACGME) accredited residency program in colon and rectal surgery following completion of an approved ACGME or Royal College of Physicians and Surgeons of Canada (RCPSC) general surgical residency program that ultimately leads to ABS certification. Click on the link below for the complete ABS policy: [American Board of Surgery Information for International Medical Graduates](#)

2. A candidate must possess a full and unrestricted license to practice medicine in the United States or Canada or be engaged in full-time practice in the United States federal government for which licensure is not required. A candidate may be rendered ineligible for certification due to any limitation, suspension, or termination of any license held by the candidate, including, but not limited to, any disciplinary action by any medical licensing authority; by entry into a consent order; by voluntary surrender, in lieu of disciplinary action while under investigation for same; or suspension of license; provided that a candidate shall not be disqualified solely on the basis of a limitation, suspension or termination of a license by a medical licensing authority in any jurisdiction where the candidate does not practice, and where the action of such jurisdiction is based upon and derivative of a prior disciplinary action taken by another jurisdiction, provided that the candidate has a full and unrestricted license in each jurisdiction in which the candidate practices, and provided further that any jurisdiction granting the candidate a full and unrestricted license was made aware of and took into account any outstanding disciplinary restrictions and/or license restrictions in other jurisdictions in granting such full and unrestricted license. Entry into and successful participation in a non-disciplinary rehabilitation or diversionary program for chemical dependency authorized by the applicable medical licensing authority shall not, by itself, disqualify a candidate from taking a certification examination.
3. A candidate must successfully complete the Qualifying Examination of the American Board of Surgery before being admitted to the American Board of Colon and Rectal Surgery Written Examination (Part I).
4. A candidate must achieve certification by the American Board of Surgery before being admitted to the American Board of Colon and Rectal Surgery Oral Examination (Part II).

APPLICATION FOR EXAMINATION

Each candidate for examination must complete and submit an Application for Examination which may be obtained on the Board's website www.abcrs.org. The application must also be accompanied by two recent photographs of the applicant and the required application fee.

As part of the application process, residents must complete a list of all operative procedures performed during their training period. Case log reporting is completed using the electronic software provided by the Accreditation Council for Graduate Medical Education (ACGME). Login instructions and deadline dates are accessible through the ACGME website www.acgme.org. The American Board of Colon and Rectal Surgery will obtain the information directly from the ACGME.

The acceptability of a candidate for examination depends not only on completion of the requirements listed under "Qualifications of Candidates," but also on information available to the Board regarding the candidate's professional maturity, surgical judgment, and technical competence.

In addition to the regular fees, a \$100 per hour administrative fee (up to \$2000 maximum) will be charged to candidates who create an additional administrative burden to process their application by:

1. Failing to submit all the required documentation in a timely fashion and before the designated deadlines.
2. Submitting an application with unusual circumstances or conditions necessitating extra use of the Board's administrative resources.

ETHICS AND PROFESSIONAL POLICY

The American Board of Colon and Rectal Surgery believes that certification by the ABCRS carries an obligation for ethical behavior and professionalism in all conduct. The exhibition of unethical behavior or a

lack of professionalism by an applicant or diplomate may therefore prevent the certification of the applicant or may result in the suspension or revocation of certification. All such determinations shall be at the sole discretion of the ABCRS.

Unethical and unprofessional behavior is denoted by any dishonest behavior, including: cheating, lying, falsifying information, misrepresenting one's educational background, certification status and/or professional experience, and failure to report misconduct. The American Board of Colon and Rectal Surgery has adopted a "zero tolerance" policy toward these behaviors, and individuals caught exhibiting such behaviors risk being permanently barred from certification, reported to state medical boards, and/or legally prosecuted for copyright or other violations.

ETHICS AND PROFESSIONAL POLICY (Continued)

Unethical behavior is specifically defined by the ABCRS to include the disclosure, publication, reproduction or transmission of ABCRS examinations, in whole or in part, in any form or by any means, verbal or written, electronic or mechanical, for any purposes. This also extends to sharing examination information or discussing an examination while still in progress. Unethical behavior also includes the possession, reproduction or disclosure of materials or information, including examination questions or answers or specific information regarding the content of the examination, before, during or after the examination. This definition specifically includes the recall and reconstruction of examination questions by any means and such efforts may violate federal copyright law. All ABCRS examinations are copyrighted and protected by law; the ABCRS will prosecute violations to the full extent provided by law and seek monetary damages for any loss of examination materials.

FEES

Application Fee

A nonrefundable fee of \$400 shall accompany the application by August 15th.

Written Examination Fee (Part I)

A fee of \$1,200 is due and payable upon notification of approval to take the Written Examination. A fee of \$1,400 will be charged (\$200 late fee) for any written examination fee received between January 16th-January 19th.

Oral Examination Fee (Part II)

A fee of \$1,200 is due and payable when the candidate is notified of approval to take the Oral Examination. Deadline is June 1st. A \$1,400 will be charged (\$200 late fee) for any oral examination fee received between June 2nd – June 8th.

Re-Examination Fee

Fees for re-examination are the same as shown above for each examination.

Withdrawal from Examination

A candidate who withdraws must notify the Board office at least ten business days before a scheduled examination. A candidate, who fails to appear for examination or withdraws without giving at least ten days notice as defined above, will forfeit \$200 of the designated examination fee and will have to resubmit the forfeited amount before being admitted to the next scheduled examination.

Late Applications

Recognizing that a situation may arise that prevents an applicant from meeting the August 15th deadline; the

Board has a provision for late applications. Late applications are those received from August 16th – September 10th each year. There is a non-refundable late application fee of \$200 bringing the total processing fee to \$600. No applications will be accepted if received after September 10th.

Fees are subject to change as directed by the Board.

Each Diplomate is asked to pay annual dues until retirement to help defray expenses incurred by Board activities. Fees are based on the actual expenses incurred in office administration and in conducting the examination. The dues are currently \$500 for limited and \$200 for diplomates holding unlimited certificates.

Additional Fees

In addition to the regular fees, a \$100 per hour administrative fee (up to \$2000 maximum) will be charged to candidates who create an additional administrative burden to process their application by:

1. Failing to submit all the required documentation in a timely fashion and before the designated deadlines.
2. Submitting an application with unusual circumstances or conditions necessitating extra use of the Board's administrative resources.

EXAMINATIONS

To achieve certification by the American Board of Colon and Rectal Surgery, a candidate must pass a Written Examination (Part I) and an Oral Examination (Part II). The Written Examination is offered in the spring and a candidate is required to pass this examination before being permitted to take the Oral Examination which is given in the fall.

Examinations are conducted at times and places determined by the Board, and this information may be obtained from the Board office. It is also published on the ABCRS website (www.abcrs.org), Diseases of the Colon and Rectum, and in the Directory of Graduate Medical Education Programs. Written Examinations are conducted at national testing centers and Oral Examinations are held in one designated city in the United States.

Part I - Written Examination

The Written Examination is an assessment of a candidate's knowledge of the theory and practice of colon and rectal surgery including elements of radiology and pathology. The written portion of the examination is a six-hour computer test of multiple choice questions covering the spectrum of colon and rectal surgery and the body of basic science pertinent to it.

Part II - Oral Examination

The Oral Examination is conducted by members of the Board and its designated examiners. Its objective is to evaluate the candidate's clinical experience, problem solving ability and surgical judgment, and to ascertain the candidate's knowledge of the current literature on colon and rectal diseases and surgery. Each candidate will undergo three 30-minute oral examinations by three two-member examining teams.

Examination Results

The Board makes every effort to be as prompt as possible in notifying candidates of their examination results, and letters of notification may be expected from two to four weeks following each examination.

RE-EXAMINATIONS

A candidate who has failed either the written or oral portion of the examination may be re-examined after one year has elapsed.

A candidate who fails to pass either the written or oral portion of the examination may repeat that part of the examination twice, thus offering the candidate three opportunities to pass each part of the examination.

A candidate who fails to pass either the written or oral portion of the examination three times may not repeat the examination without requesting readmission to the Board's certification process and completing the Standard or Alternative Pathway shown below

REQUIREMENTS GOVERNING ADMISSIBILITY TO EXAMINATIONS

A candidate must apply to the Board's certification process within three years after the completion of approved colon and rectal training.

Special Re-entry Policy

Candidates who apply after the prescribed three-year period (late applicants) must observe the Board's special reentry policy. The requirements include submission of updated background and training information, a current list of operative procedures, documentation of 100 Category I CME credit hours (two years prior to the application date), and a \$350 processing fee (in addition to the regular application fees). Late candidates will undergo a Federation of State Medical Boards (FSMB) search to ensure there are no restrictions pending against their license. Also, verification from the Chief of Surgery from their institution/hospital will be requested attesting to the ethical/moral standing of the applicant. Pending approval of these requirements, the applicant may submit the standard Application for Examination (along with the required fees) to the Board. Complete details may be obtained by writing the Board office.

For all certification applicants, August 15th prior to the examination date is the deadline for receipt of late entry application materials and the \$750 application fee (\$400 regular & \$350 special processing fee).

The entire Board certification process must be successfully completed within seven years following approval of the formal application. In addition, a candidate whose application for examination has been approved, but who does not take the examination within three years, must submit a new application.

In exceptional or unusual circumstances, the Board may, at its discretion, waive one or more of these limitations.

Regaining Admissibility

Individuals who seek certification by the American Board of Colon and Rectal Surgery and have lost their admissibility may request readmission to the Board's certification process. The following pathways have been established to allow such individuals to regain admissibility. These pathways apply to candidates who:

- (1) Failed to pass either the Written (Part I) or Oral (Part II) Examination on three occasions.
- (2) Exhausted their seven-year time limit in which to successfully complete both the written and oral examinations.

I. STANDARD PATHWAY

The "standard pathway" which is detailed below and outlined on www.abcrs.org entails a formal full time four-month training period in an ACGME approved colon and rectal surgery residency program. Each request for readmission will be considered on an individual basis. The guidelines below govern the retraining process:

- a. All applicants requesting additional training must hold a valid, registered, full and unrestricted license to practice medicine in a state, territory or possession of the United States or in a Canadian province. They must continue to be licensed throughout the certification process. Applicants must hold a current certificate from the American Board of Surgery.
- b. The additional training period is four months in duration and must be conducted in a full-time ACGME approved colon and rectal surgery residency program. All such training must be approved (in advance) by the Board. A list of programs can be found on our website at <http://www.abcrs.org/residency-programs/>. It is the responsibility of the applicant to contact Program Directors to determine their willingness to participate.
- c. The Program Director will serve as the preceptor and will assign duties and responsibilities to the Trainee with assistance from the faculty.
- d. The curriculum must be comprehensive but should place special emphasis on any specific areas of weakness identified in the Trainee's prior examinations. The program will emphasize patient management and clinical problem-solving skills. The use of patient care algorithms is recommended to demonstrate appropriate data collection with logical application toward diagnosis and therapy in a systematic manner.
- e. The program will require the Trainee to actively participate in daily patient rounds and new patient evaluations in the office and hospital settings.
- f. The Trainee's attendance will be mandatory at departmental teaching conferences such as: (1) Tumor Boards, (2) Morbidity/Mortality Conferences, (3) Preoperative Conferences, (4) Pathology Conferences, etc. The Trainee should be actively involved in the conferences. The Program Director should assign primary responsibility for appropriate teaching and presentations by the Trainee.
- g. Operative experience is not necessary but is permitted if the Preceptor feels it is appropriate for teaching and does not take from the experience of the accredited residents.
- h. The Trainee should keep up-to-date with current colon and rectal literature and complete the latest ASCRS CARSEP program. The Trainee should be quizzed for cognitive content at regular intervals, but preferably, at the end of the second, third, and fourth months. These efforts should be monitored and critiqued by the Program Director.
- i. The Trainee will be evaluated by the Program Director at regular intervals. An evaluation form must be submitted to the Board at the end of the second month, and at the completion of the training period.
- j. Following successful completion of training, physicians must apply for readmission to the certification process within one year. They must take the examination within two years following approval of their application for readmission. A fully completed Application for Examination and required fee must be submitted by August 15 of each year. A timetable listing subsequent examination dates is available on www.abcrs.org.
- k. The Credentials Committee of the Board will review all applications in the fall of the application year. Following the review process, applicants will be informed of their acceptance/rejection for examination. Regardless of their previous failure domain (Part I or Part II), readmitted physicians will be required to take and pass both the Written (Part I) and the Oral (Part II) Examinations to achieve certification by the American Board of Colon and Rectal Surgery.
- l. Once an applicant is accepted for examination, all the Board's established rules and regulations, governing its examination process must be observed. This information is published in *Diseases of the Colon and Rectum*, and the *Directory of Graduate Medical Education Programs* and on the ABCRS website.

- m. Candidates will have seven years to complete the examination process following completion of their retraining and official approval for examination. If they fail to pass the written or oral portion of the examination within three attempts during that time interval, they will not be eligible for additional retraining or reentry into the ABCRS certification process.

II. ALTERNATIVE PATHWAY

The “Alternative Pathway” is intended to allow applicants to acquire and demonstrate adequate knowledge at their own pace. It encourages pursuit of Board certification with less adverse impact on their practice and does not require a formal retraining period. To begin the alternate pathway, an applicant must submit the following:

- a. Completed application for re-admissibility.
- b. All applicants requesting additional training must hold a valid, registered, full and unrestricted license to practice medicine in a state, territory or possession of the United States or in a Canadian province. They must continue to be licensed throughout the certification process.
- c. Applicants must hold a current certificate from the American Board of Surgery.
- d. Documentation of 100 hours of CME activity within the last 24 months, of which 60 hours must be Category I.
- e. Verification of completion of the most recent version of the American Society of Colon and Rectal Surgeons Education Program (CARSEP). This program may be used to satisfy the requirement for 50 hours of Category I CME.
- f. Reference letter from the Chief of Surgery or Chair of the hospital credentials committee where the majority of the applicants’ work is done.
- g. An operative case log for the most recent 12-month period.
- h. The Alternate Pathway Re-admission fee is \$2,000 and includes the application and examination fee. The fee is payable to the American Board of Colon and Rectal Surgery and must be submitted by August 15 of each year.
- i. Following approval of the above requirements by the Board’s Credentials Committee, the applicant will be required to successfully complete the Colon and Rectal In-Training Exam (CARSITE).
 - (1) The CARSITE will be offered once each year. The exact date will be determined by the Board.
 - (2) If the initial attempt at passing the examination is unsuccessful, the applicant may retake the examination the following year. The re-exam fee will be \$600.00.
 - (3) Upon successful completion of the Re-Admission Examination, the applicant will be admitted to the Board’s certification process and will be eligible to take the Written (Part I) Examination at the next prescribed time interval. A timetable listing subsequent examination dates is available on www.abcrs.org. Applicants will have a total of seven years to successfully complete the written and oral examinations.

STATUS OF APPLICANT

The Board does not use or sanction the terms "Board Eligible" or "Board Qualified." The standing of an individual with the Board varies according to the current status of credentials and will be so reported.

INQUIRY AS TO STATUS

The Board considers an individual's record not in the public domain. When a written inquiry is received regarding an individual's status, a general but factual statement is provided which indicates the individual's location within the examination process.

RECONSIDERATION AND APPEALS

The American Board of Colon and Rectal Surgery hereby establishes the following policy with regard to reconsideration and appeals of decisions adverse to diplomates, candidates, and potential candidates.

1. **Questions or Complaints:** Any diplomate, candidate, or potential candidate who considers an action of the Board adverse to his/her interest to be wrong or to be based upon unfairness, inconsistency or inequality may request reconsideration. If reconsideration results in affirmation of the adverse decision or in another adverse decision, the diplomate, candidate or potential candidate may appeal that decision.
 - 1.1 A candidate who fails a written examination may request, in writing, that his/her examination be re-scored by hand to verify the accuracy of the results as reported to him/her. There shall be no further appeal of a failure of a written examination.
 - 1.2 An oral examination is subject to questions of fraud or misconduct by the examiner(s), but is not subject to questions of content of the examination, the sufficiency or accuracy of the answers given or any other matter.
2. **Reconsideration:** A request for reconsideration must be made in writing to the Board office within 60 days of the date of notice from the Board of the action in question. The request shall be accompanied by such documentation as the requestor considers appropriate. The request for reconsideration will be reviewed by a Reconsideration Committee consisting of at least the President, Secretary, and appropriate Examination Committee Chairman prior to the next regular Board meeting. The Reconsideration Committee will report its decision to the Board. Within 30 days following the meeting of the Board, the requestor shall be notified in writing of the Reconsideration Committee's actions and the reasons therefore.
 - 2.1 The decisions of the Reconsideration Committee shall be considered final unless the requestor, within 30 days of the date of notice from the Reconsideration Committee, gives written notification to the Board that a personal appeal is planned. This written notification shall include a request for a hearing and shall set forth the reasons for disagreement with the findings of the Reconsideration Committee.
3. **Personal Appeals:** When a request for a personal appeal is received, a hearing shall be scheduled before an ad hoc appeals committee at the time of the next regular scheduled Board meeting. If an earlier meeting is required the appellant shall be responsible for all expenses incurred. The appellant shall be notified in writing at least 30 days prior to the meeting of the time and location at which he/she should appear.
 - 3.1 The Appeals Committee, appointed by the President, shall consist of three (3) current or former members of the American Board of Colon and Rectal Surgery who did not participate in making the adverse appellate decision.
 - 3.2 Prior to the hearing, the Reconsideration Committee may ask the appellant to make available information or documents relevant to the adverse appellate decision. Failure

of the appellant to provide such information or documents may be an independent ground to affirm the appellate decision.

- 3.3 The appellant shall appear at the hearing in person and may be accompanied by counsel. A representative of the Reconsideration Committee shall present such oral and written evidence as he/she desires to support the decision of the Reconsideration Committee. The appellant and members of the Appeals Committee shall have the right to question the representative of the Reconsideration Committee and any other witness concerning the evidence presented. The appellant may present such oral and written evidence as he/she desires to challenge the decision of the Reconsideration Committee. Members of the Appeals Committee and the representatives of the Reconsideration Committee shall have the right to question the appellant and any other witness concerning the evidence presented.
- 3.4 Upon completion of the hearing, the Appeals Committee, in closed session, shall make a determination by majority vote. Its decision will be presented to the Board.
- 3.5 The determination made by the Appeals Committee of the American Board of Colon and Rectal Surgery, Inc., shall be final and binding upon the Board and the appellant, and shall be transmitted to the appellant in writing within 30 days of the close of the hearing.

CERTIFICATION

A candidate, who has met all the requirements and successfully completed the examinations of the American Board of Colon and Rectal Surgery, will be issued a certificate attesting to his/her qualifications in colon and rectal surgery. The certificate shall be signed by the President or President-Elect and the Executive Director, and shall bear the corporate seal of the Board.

The certificate granted by the Board does not confer privilege or license to practice colon and rectal surgery but is evidence that a physician's qualifications for specialty practice are recognized by his/her peers. It is not intended to define the requirements for membership on hospital staffs, to gain special recognition or privileges for its Diplomates, to define the scope of specialty practice, or to state who may or may not engage in the practice of the specialty.

Unless the candidate specifies otherwise, the Board forwards the names of candidates who have achieved certification to the American Board of Medical Specialties for publication in the *Official ABMS Directory of Board Certified Medical Specialists*.

REPRESENTATION OF CERTIFICATION STATUS

Diplomates of the American Board of Colon and Rectal Surgery must accurately state their certification status at all times. This includes descriptions in curriculum vitae, advertisements, publications, directories and letterheads. Diplomates with expired time-limited certification or those whose certification is suspended or revoked may not claim Board Certification and must revise all descriptions of their qualifications accordingly. When a physician misrepresents certification status, the Board may notify local credentialing bodies, licensing bodies, law enforcement agencies and others.

TIME-LIMITED CERTIFICATION

Beginning with those candidates who passed the certifying examination in 1990 and thereafter, the American Board of Colon and Rectal Surgery will issue time-limited certificates. Certificates will be valid for ten years from the date of certification, after which the certificates will no longer be valid.

NOTE: Time-limited certification will not affect Diplomates holding certificates issued prior to 1990.

MAINTENANCE OF CERTIFICATION (MOC)

The American Board of Colon and Rectal Surgery offers Maintenance of Certification in the specialty. Certificates can be renewed prior to expiration by fulfilling the requirements for Maintenance of Certification specified by the Board. The examination is offered annually to all certified colon and rectal surgeons who apply and meet the Board's requirements. Additional information is available on our website by clicking on Maintenance of Certification. <http://www.abcrs.org/maintenance-of-certification-3/>

EXAMINATION OF CANDIDATES WITH DISABILITIES

The American Board of Colon and Rectal Surgery supports the intent of the Americans with Disabilities Act (ADA). The Board will make a reasonable effort to provide Board applicants who have documented disabilities with modifications in its examination process which are appropriate for such disabilities but which do not alter the measurement of the skills or knowledge which the examination process is intended to test.

REVOCAION OF CERTIFICATES

Any certificate issued by the American Board of Colon and Rectal Surgery (ABCRS) may be subject to sanction such as **revocation or suspension** at any time that the directors shall determine, in their sole judgment, that the diplomate holding the certificate was in some respect not properly qualified to receive it or is no longer properly qualified to retain it. At its discretion, the Board may revoke a Diplomate's certificate for cause, including, but not limited to:

1. The diplomate did not possess the required qualifications and requirements for examination, whether or not such deficiency was known to the Board or any committee thereof prior to examination or at the time of issuance of the certificate, as the case may be.
2. The diplomate made an intentional and material misrepresentation or withheld material information in the application to either part of the examination or in any other representation to the Board or any Committee thereof.
3. The diplomate made a misrepresentation to the board or any third party as to his or her status as a diplomate of the Board.
4. The diplomate engaged in irregular behavior in connection with an examination of the board (as described under Irregular Behavior), whether or not such behavior had an effect on the performance of the candidate on an examination.
5. The diplomate was convicted by a court of competent jurisdiction of a felony or misdemeanor involving moral turpitude and, in the opinion of the Board, having a material relationship to the practice of medicine.
6. There has been a limitation, suspension, termination or voluntary surrender, in lieu of disciplinary action, of any license or of any right associated with the practice of medicine, including the imposition of any requirement of surveillance, supervision, or review due to a violation of a medical practice act or other statute or governmental regulation, disciplinary action by any medical licensing authority, entry into a consent order, or voluntary surrender of license.
7. A diplomate has failed to comply with the terms and conditions of the Board's Maintenance of Certification program.

RESPONSIBILITY OF CANDIDATE/DIPLOMATE

The Board shall require each Candidate and each Diplomate to provide complete information concerning any and all restrictions placed on his/her license within sixty days after its imposition. Such information shall include, but is not limited to, the identity of the state medical board imposing the restriction as well as the restriction's duration, basis, and specific terms and conditions. The Candidate/Diplomate has the affirmative obligation to advise the Board of all restrictions and to inform it when such restrictions expire or are otherwise removed.

Candidates/Diplomates who are discovered not to have made disclosure shall be required to show cause why their Candidate/Diplomate status should not be withdrawn, deferred or otherwise sanctioned. The Board may defer further consideration or reinstatement until such disclosure is satisfactorily made.

NOTE: The Board shall periodically review the database of the Federation of State Medical Boards to identify any Candidates/Diplomates who have failed to disclose license restrictions.

FORMER OFFICERS OF THE BOARD

President

Curtice Rosser	1949-1950
Walter Fansier	1950-1954
Louis E Moon	1954-1955
Robert A Scarborough	1955-1956
Harry E Bacon	1956-1957
Hyrum R Reichman	1957-1958
AW Martin Marino, Sr	1958-1959
Robert J Rowe	1959-1960
Frederick B Campbell	1960-1961
Merrill O Hines	1961-1963
AW Martin Marino, Sr	1963-1964
Clifford E Hardwick	1964-1965
Karl Zimmerman	1965-1966
Patrick H Hanley	1966-1967
J Edwin Alford	1967-1968
Stuart T Ross	1968-1969
Andrew J McAdams	1969-1971
Donald M Gallagher	1971-1973
James A Ferguson	1973-1975
Matthew A Larkin	1975-1976
Alejandro F Castro	1976-1977
Eugene P Salvati	1977-1979
Eugene S Sullivan	1979-1980
Stanley M Goldberg	1980-1981
H Whitney Boggs, Jr	1981-1982
John E Ray	1982-1983
G Bruce Thow	1983-1984
Bertram A Portin	1984-1985
Malcolm C Veidenheimer	1985-1987
Peter A Volpe	1987-1988
Wallace Bailey	1988-1989
J Byron Gathright, Jr	1989-1990
Ira J Kodner	1990-1991
Victor W Fazio	1991-1992
Lee E Smith	1992-1993
John M MacKeigan	1993-1994
